

Inter-Office Memorandum

TO: Officer Tyler Brown  
From: Sergeant Casey Malone  
Date: 5/16/2013  
Subject: 2013-0005

The Internal Affairs division has concluded its investigation regarding case number **2013-0005** and reached the following findings:

Allegation:	Finding:
<b>Tort Claim</b>	
<b>Unsatisfactory Performance</b>	<b>Sustained</b>
<b>Violation of Rules</b>	<b>Sustained</b>

Please contact me if you have any questions. Any sustained findings are forwarded to the appropriate division for closure.

## INTER-OFFICE MEMORANDUM

**DATE:** March 28<sup>th</sup>, 2013

**TO:** Chief Kyle Westall

**FROM:** Captain Vincent Mitchell

**SUBJECT:** IA 2013-0005 Discipline Recommendation

I have read and concur with the findings in the above listed Internal Affairs investigation. A **sustained** finding was determined for Officer Tyler Brown violating the code of conduct section titled **Unsatisfactory Performance**. After additional review, I am recommending a **sustained** finding for Officer Brown violating the code of conduct section titled **Violation of Rules** for the following reasons:

The code of conduct titled **Violation of Rules** states: *Employees shall not violate or assist in violating rules, regulations, directives or orders of the Department, whether stated in this Department Manual or elsewhere.* In the internal affairs report narrative, Sgt. Malone noted infractions within the Department's policy and procedure relating to 241-02 (Patrol Operations), and 241-04 (Responding to Calls for Service). The investigation established a preponderance of evidence to show Officer Brown violated these policies.

I am recommending a 30 hour suspension without pay for the following reasons:

Aside from being in policy, the Department's first line supervision up through it's administrative staff mention or discuss almost daily the need for officers to wear their seatbelt and operate department vehicles in a safe manner. Officer Brown's driving behavior displayed a clear and deliberate disregard for Department policy and the supervision who convey the importance of safety. Officer Brown's actions were unprofessional and showed a lack of attention to duty and self discipline. It should be noted that Brown's actions have unnecessarily exposed the department to the potential of some liability. Officer Brown acknowledged the violations and I believe this is a critical element toward correcting future behavior, but the egregious failure to perform despite almost daily reminding merits a stern response.

ADMINISTERED ON 05/6-18/2013  
M.49,

-Trish K233

**Complaint:**

On March 19<sup>th</sup>, 2013, I was assigned an Internal Affairs Case File in reference to a Tort Claim. The Tort Claim had been received by the City of Farmington on January 4<sup>th</sup>, 2013. The document was from the law office of Arlon L. Stoker on behalf of Deseree Trujillo and was in reference to a traffic crash that occurred on December 12, 2012. The crash involved Farmington Police Officer Tyler Brown.

The notice states Deseree Trujillo was a passenger in the vehicle and she suffered critical, life threatening injuries.

**Investigation Review:**

A review of the file showed that a traffic crash occurred on December 12, 2012 at approximately 0342 hours at the intersection of East Main Street and Butler Avenue in Farmington, New Mexico. Farmington Police Officer Tyler Brown was operating a Farmington Police Patrol Car (Unit Number [REDACTED]). This was his regularly assigned patrol car and he was on-duty at the time of the crash.

**According to the report:**

**Farmington Police Department  
ADMINISTRATIVE INVESTIGATION  
TORT CLAIM**

**Internal Affairs Case #: 2013-0005 IA      Conducted by Sergeant Casey S. Malone [REDACTED]**

Officer T. Brown was traveling westbound on East Main Street. The speed limit on this portion of East Main Street is 35 mph. As Officer T. Brown entered the intersection with Butler Avenue, he observed the second vehicle had also entered the same intersection traveling northbound on Butler. Officer T. Brown stated in the report that he entered the intersection with a green light and he never saw the other vehicle until it was too late to react. Officer T. Brown also advised he did not see any other vehicles on the roadway prior to the crash. Officer T. Brown further advised that he believes his vehicle's speed prior to impact was approximately 50 mph. He also stated he does not believe he had been wearing his seat belt.

A review of the patrol car's Electronic Control Module and Airbag Control Module was conducted. Officers were able to verify that Officer T. Brown was traveling approximately 51 mph at the time of impact. They were also able to show he was not wearing a seat belt.

Cody Olachea was the driver of the other vehicle. Olachea stated in the report that he had been traveling northbound on Butler. The speed limit on this portion of Butler Avenue is 30 mph. Olachea stated that he did not see any other traffic traveling on the roadway prior to the crash. He stated that he knew the light was not red so he entered the intersection with East Main Street. Olachea further stated he didn't believe the light was green either. He then advised he looked directly at the light and saw that it wasn't red but he was also not sure what color the light was, and then he stated it may have been flashing yellow. Olachea also advised he believed he had not been traveling over the speed limit and he advised the speed limit was 35 mph.

Dan Anglin with the City of Farmington Traffic Engineer Division was contacted in reference to the traffic light operation. Anglin advised that during the time period of the crash, these specific traffic lights go into "rest mode." During "rest mode," the signal lights for east and west bound traffic on Main Street remain green until a vehicle triggers a sensor on Butler. Once the signal is triggered, it takes 3-5.5 seconds for the light to turn from red to green on Butler. These sensors are approximately one vehicle's length from the stop line at the intersection. Therefore, a vehicle traveling on Butler must cross over the sensor and then wait 3-5.5 seconds until their light turns green. Anglin further advised that if the lights fail to function properly the system is designed to go into a safe mode which changes the lights to flashing red in all directions. The system then sends an email to him notifying him of the problem. Anglin stated he had not received any emails in reference to this intersection.

**Video Evidence:**

**Farmington Police Department  
ADMINISTRATIVE INVESTIGATION  
TORT CLAIM**

**Internal Affairs Case #: 2013-0005 IA      Conducted by Sergeant Casey S. Malone/R-633  
Video from Officer T. Brown's Unit (# 9846):**

According to Officer T. Brown's in-car camera, he activated the camera at 03:42:46 hours. As the camera activated, it was facing upward, primarily in a westerly direction. Captured in the camera's view was the traffic signal light for westbound traffic on East Main Street and northbound traffic on Butler Avenue.

You can clearly see on the camera that the traffic light is green for westbound traffic on East Main Street and red for northbound traffic on Butler. The light remains like this until 03:47:08 hours when it changes to red for westbound traffic on East Main Street. The light remains red for westbound traffic on East Main Street and green for northbound traffic on Butler for approximately 15 seconds. The lights cycles again to red for westbound traffic on East Main Street at 03:48:55 hours but this time it never changes to green for northbound traffic on Butler. I assumed that the light changed to green for the turning lanes off of Butler on to Main Street. During this cycle, the light only remained red on Main Street for approximately 13 seconds.

**Interview with Officer Tyler Brown:**

On March 20, 2013 at approximately 1555 hours, I interviewed Officer T. Brown. Prior to the interview, I provided Officer T. Brown with a Notice of Investigation. Officer T. Brown read and signed the form. He stated he did not have any questions in regards to the content of the form. I then asked him to tell me what he remembered about the traffic crash that occurred on December 12, 2012.

Officer T. Brown stated that he was traveling westbound on Main Street approaching the intersection with Butler. He stated he does not recall his exact speeds but he estimates he was traveling approximately 50 mph. He also stated that he was not wearing his seat belt. Officer T. Brown stated as he was entering the intersection, he never saw the other vehicle until he struck it.

Officer T. Brown advised he exited his patrol car and walked to the back while looking for the other vehicle. He stated he did not see the vehicle so he got on the radio and advised dispatch of the crash. He stated that he then activated his in-car camera. Officer T. Brown advised that at this point he realized his head was hurt and he was bleeding. He stated he walked towards the front of his patrol car to sit down on the curb. He stated as he was doing this, Officer S. Kennedy arrived on scene and started calling his name. He advised that as he was standing up, he observed the other vehicle in the parking lot of KFC. He stated that he and Officer S. Kennedy went over to the other vehicle and began rendering aid.

**Farmington Police Department  
ADMINISTRATIVE INVESTIGATION  
TORT CLAIM**

**Internal Affairs Case #: 2013-0005 IA**

*Conducted by Sergeant Casey S. Malone/R-633*

At this time, I asked Officer T. Brown if he remembers if the light was green in his direction prior to the crash. He stated it was green. I asked him a second time if he specifically remembered the light being green. Officer T. Brown stated, "I specifically remember having a green light." He also stated that as he exited his patrol car after the crash the first thing he did was look up at the light and he observed it was green.

**Conclusion:**

The evidence in this case shows the Farmington Police Officer was traveling westbound on East Main Street when he was involved in a vehicle crash at the intersection with Butler. The other vehicle had been traveling northbound on Butler. The driver of the other vehicle was arrested and charged with Great Bodily Injury, Possession of a Controlled Substance, and Failure to Obey Signal.

According to Farmington Police Officer Tyler Brown, there is no question in his mind that the light was green for his direction of travel.

According to the investigation, the driver of the other vehicle, Cody Olachea, was uncertain what color the light was. He stated he was certain the light was not red but he also stated the light was not green. He did advise the light was possibly flashing yellow. It was determined that this driver had consumed impairing substances. The results of Olachea's blood test showed his BAC to be 0.11 gms/100ml. Also, the signal lights at this intersection are never set to flash yellow.

The facts are as follows: the street light at Main and Butler is designed to remain green for traffic on Main Street until a vehicle on Butler triggers a sensor. It then takes 3-5.5 seconds for the light to turn green on Butler. Both drivers stated they did not see any other traffic on the roadway. Immediately after the crash, Officer T. Brown activated his in-car camera. The camera showed the light was green for westbound traffic on East Main Street.

Based on the Preponderance of the Evidence, it is more likely than not that the light was green for westbound traffic on East Main Street. Therefore, the other driver ran a red light for northbound traffic on Butler. This violation of failing to obey a signal is the largest contributing factor in this crash.

**Collateral Issues:**

Through the course of the investigation, it was determined that Officer T. Brown was traveling approximately 50 mph in a 35 mph zone on East Main

Street. Officer T. Brown does not dispute this, and he is unable to provide any justifiable reason for his speed.

**Responding to Calls for Service - 241-04**

*Section 66-7-6 of the Motor Vehicle Code regulates the operation of authorized emergency vehicles and provides exemptions from certain traffic laws to those operators.*

*The exemptions granted to an authorized emergency vehicle apply only when the driver of the vehicle, while in motion, sounds an audible signal by bell, siren or exhaust whistle as reasonably necessary and when the vehicle is equipped with at least one lighted lamp displaying a red light visible under normal atmospheric conditions from a distance of five hundred feet to the front of the vehicle, except that an authorized emergency vehicle operated as a police vehicle need not be equipped with or display a red light visible from in front of the vehicle.*

*This section does not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons nor does it protect the driver from the consequences of his reckless disregard for the safety of others.*

**Non-Emergency Call Response:**

*Calls for service of a non-emergency nature where a quick response is not essential. Officers follow normal operating conditions by driving in a safe and courteous manner, adhering to all traffic laws. These types of calls may include, but are not limited to: Non-Injury Crashes, Transports, Calls not in progress, Speak to Officer.*

**Collateral Issues - Continued:**

The investigation also showed that Officer T. Brown was not wearing a seat belt. Officer T. Brown does not dispute this and he is unable to provide any justifiable reason for not wearing his seat belt.

**Patrol Operations – 241-02**

**Patrol Vehicles - Seat Belt Usage:** *In compliance with New Mexico State Statutes and City of Farmington Safety Policy, seat belts are worn by drivers and passengers of all Department vehicles at all times the vehicle is in motion. Officers are exempt only in cases of emergency where such use would endanger officer safety. A child restraint device is*

## NOTICE OF INVESTIGATION

Tyler Brown  
Employee Name

03/20/2013

Date

1555

Time

\* An administrative investigation is being conducted into allegations (see the summary of the complaint below) of possible violations of the Policies and Procedures or the Code of Conduct of the Farmington Police Department concerning the following incident(s): [Summary should include date, time, location (if known), and description of the specific nature of the allegation.]

\* An administrative investigation is being conducted into the circumstances of your direct involvement in a police involved shooting, in-custody death, use of force incident, or driving incident (see the summary of the incident below):

### Summary of Incident / Complaint

*Officer T. Brown was involved in a vehicle crash on 12/12/2013  
at the intersection of E. Main St. & Butler Ave.*

Per the Peace Officer's Employer - Employee Relations Act (29-14-1 through 29-14-11 NMSA 1978), Article 26, Employee Investigations and Discipline, of the Agreement between City of Farmington and Communication Workers of America, and the applicable portions of the Code of Conduct, as an employee you have specific rights and responsibilities in this investigation. In the event of an officer involved shooting or accident with life threatening injuries, you have the right to request a 48 hour "cool down" period prior to any questioning.

Initial TD A. You are being compelled by a Farmington Police Department supervisor to truthfully answer questions relating to your duties/conduct, and you can be disciplined up to and including dismissal for refusal to answer these questions.

Initial TD B. Any questions, tests, or examinations put to you will be narrowly and specifically related to your performance of duties and fitness for office.

Initial TD C. Any compelled statements, tests, or examination results can be used against you in disciplinary/administrative/civil proceedings, but will not be used against you in any subsequent criminal action related to the scope of this investigation. However, false statements made by you can be used in other criminal actions, such as Obstruction of Justice or Perjury.

Initial TD D. Any sustained false, deceptive, or misleading statements you make can lead to additional discipline up to and including dismissal, as well as possible suspension or revocation of your New Mexico Police Officer Certification (29-7-13 NMSA 1978).

Initial TD E. Any interrogation of you will be recorded, either mechanically, digitally, or by stenographer. You have the right to request, in writing, no later than 15 days from the completion of the investigation, a copy or transcript of any interrogation.

Initial TD F. You are entitled to receive copies of this Notice of Investigation as well as the Peace Officer's Employer - Employee Relations Act prior to the start of the interview and to retain them throughout the entire course of the interview.

Initial TD G. During the course of the investigation, you have the responsibility to bring to the attention of the investigating supervisor any witness information or mitigating or exculpatory evidence you believe is relevant to the investigation. You may do this yourself, through your representative or in memorandum form.

Yes  No Due to the on-going nature of this investigation, you are being given a direct order not to discuss this investigation, including your interview, with any unauthorized person. Other than the investigating supervisor(s), the only persons you may speak to concerning this investigation are enumerated as follows: Privileged communications between the employee and his/her attorney, minister, unit representative, or spouse are allowed.

**SYNOPSIS:**

On 12/11/2012 at approximately 0342 hours, I, Deputy Chris Ahkeah was dispatched to a two vehicle crash with injuries at the intersection of Main Street and Butler Avenue in Farmington, NM.

**INVESTIGATION:**

Upon the initial dispatch I was advised by dispatch that one of the vehicles involved was a Farmington Police Department patrol unit. When I arrived on scene I observed a Farmington Police patrol unit was near the northwest intersection of Main Street and Butler Avenue. The police unit (V2) had a New Mexico license plate number of G66628 and it had heavy front end damage. The other vehicle involved was an orange 1999 Mitsubishi which had a New Mexico license plate number of 299RML. The Mitsubishi passenger car (V1) was located in the parking lot of the Kentucky Fried Chicken northwest of the intersection of Main Street and Butler Avenue. V1 had heavy front end damage and heavy passenger and driver side damage. When I arrived I was advised that the driver Cody Olachea (D1) and his front passenger Deseree Trujillo were transported to the hospital. The driver of Farmington Police vehicle Officer Tyler Brown (D2) was also transported to the hospital. I was advised by Farmington Fire Department Firefighters that the firefighters first on scene discovered an open partially consumed bottle of Vodka in the middle console. Firefighters also told me they had to cut the top half of V1's cab to extract the driver and front passenger of V1. Sgt. Dave Pixton made the decision to have a crash reconstruction respond to the crash scene to take over the crash investigation.

After I completed my initial investigation I went to the San Juan Regional Medical Center emergency room and made contact with Farmington Police Officer Tyler Brown (D2). D2 said he was westbound on Main Street and D2 stated the light was green so he continued westbound and entered the intersection. D2 said once he entered the intersection V1 suddenly appeared traveling northbound and he attempted to avoid striking V1 but was unable to. D2 advised me after the crash he pushed the record button on his in car camera and he exited his vehicle and approached V1. D2 informed me he attempted to render aid to the D1 and the front female passenger but they were both unresponsive so he called the medics. D2 told me he was transported in the same ambulance as D1 and according to D2 he heard one of the medics ask D1 what happened and D1 admitted to the medic he had been at a party and he was "fucked up". D2 said the medic asked D1 about being "fucked up" and D1 responded by telling the medic he had took several "shots". I asked D2 if he was wearing his seat belt and he replied "no". I asked D2 how fast he was traveling before the crash and D2 was unable to recall the exact speed his vehicle was traveling prior to the crash. I observed a large laceration on top of D2's head which was bleeding. D2 complained of pain on his right shin, left side of his face and jaw.

I made contact with Farmington Police Officer Sheftan Kennedy who also rode in the ambulance with D1 and D2 and Officer Kennedy advised me he heard one of the medics ask D1 what had happened. Officer Kennedy told me D1 explained to the medics he was at a party and D1 admitted to the medic he was "fucked up". Officer Kennedy advised me D1 explained to the medic he took several "shots" when he was at the party.

I attempted to interview Deseree Trujillo the front passenger of V1 but I was unable to get any statement from her. The only information I was able to get from Ms. Trujillo was her name and date of birth. The emergency room staff advised me the injuries she suffered from the crash was a fractured skull, face, sternum, both ankles, pelvis and her liver was bleeding. According to the firefighters on scene they advised me Ms. Trujillo wasn't wearing her seat belt. I attempted to interview D1 about the crash and before any questioning in reference to the crash, I read D1 his Miranda Rights but he refused to answers any questions. I asked D1 if he suffered any injuries and he said "no". I asked D1 if he was in any pain and he replied "no". I observed dry blood inside of D1's mouth and D1 had a large contusion on his left forehead.

After my interview with D1 I was advised that Deputy Jason Cox was going to conduct a DWI investigation on D1. Deputy Cox advised me D1 refused to submit any blood tests so Deputy Cox got a blood search warrant which was signed and approved by Judge Stanley King. Once the Deputy Cox received the warrant two tubes of blood were drawn from D1's left hand and after D1 was discharged from the hospital Deputy Cox placed D1 under arrest. Deputy Cox and I were both at the jail when a jail guard advised Deputy Cox he found a white powdery substance inside of D1's wallet. Deputy Cox advised me he re-read D1's Miranda Rights and D1 agreed to speak with him. Deputy Cox informed me D1 admitted the white powdery substance was cocaine and D1 received the cocaine at the party. (SEE Deputy Cox DWI Report 2012-52260 for details)

**CAUSE:**

See Deputy Loomis' Case Supplement Report

**ENFORCEMENT ACTION:**

Deputy Cox advised me he placed D1 under arrest for 66-8-101C Great Bodily Harm by Vehicle, 30-31-23D Possession of a Schedule II Narcotic (Cocaine) and 66-7-104 Obedience to Traffic Signals.

**INJURIES:**

D1 complained of no injuries or pain. The emergency room staff advised me the injuries Ms. Trujillo suffered from the crash was a fractured skull, face, sternum, both ankles, pelvis and her liver was bleeding. I observed a large laceration on top of D2's head which was bleeding. D2 complained of pain on his right shin, left side of his face and jaw.

**OTHER PROPERTY INVOLVED: NONE**

**VEHICLE INVOLVED:** V1 and V2 were towed from the scene by Interstate Towing.

**Synopsis:**

I responded to the intersection of Butler and Main in reference to a two vehicle crash with injuries involving a Farmington Police Officer while on duty. All occupants were transported to the hospital prior to my arrival. After processing the scene with the assistance of Martin Snowbarger I conducted follow-up for the case. I spoke with both drivers and also an engineer with the City of Farmington Traffic Division. Based on my investigation I determined that Brown was speeding and Olachea did not stop for a red light.

**Investigation:**

On Wednesday December 12, 2012 at approximately 0400 hours I received a call from dispatch that there was a two vehicle crash at the intersection of Butler and Main St. in Farmington involving a Farmington Police Officer. Prior to my arrival all occupants of both vehicles had already been transported to the San Juan Regional Medical Center.

The crash occurred at approximately 0342 in the morning. It was dark in the area of the crash with street lights providing some light. The roadway was dry and I did not see any objects that may have contributed to the crash in the road. On Main Street the speed limit is 35 miles per hour. On Butler the speed limit was 35 miles per hour. When I arrived I spoke with Sergeant Dave Pixton who gave me brief explanation of what may have happened. Pixton advised Brown was traveling west bound on Main Street approaching the intersection of Butler. The other vehicle involved was traveling north bound on Butler approaching the intersection of Main St. As the two vehicles arrived at the intersection Brown's vehicle struck vehicle #1 on the right side.

I then began to take photographs of the scene. There was a large amount of car parts and glass that littered the scene. I saw that the police unit (vehicle #2) was at rest partially on top of the curb at the northwest corner of the intersection facing west. Vehicle #1 had come to a rest in the parking lot of Kentucky Fried Chicken near the southeast corner facing north. I saw that both vehicles were heavily damaged. I took photographs of the intersection in all four directions. I took photographs of both vehicles as much as I could while on scene. Then, with the assistance of the Farmington Fire Department, I was able to climb up the ladder on a fire truck and be lifted above the intersection for additional photographs.

I was able to locate the Area of Impact and saw that vehicle #1 was more than likely traveling in the inside lane of the two northbound straight lanes on Butler. Vehicle #2 was traveling in the inside lane of the two westbound lanes on Main Street. I did not find any evidence on the roadway of actions from either driver prior to impact. After vehicle #1 left a short gouge in the road, scrape marks began and led to the west. I did not see where vehicle #2 left any kind of gouge mark or scrapes at the area of impact. After impact I saw that vehicle #2 continued to move west where it finally came to a rest. I then was able to locate other numerous scrape marks that were cause by vehicle #1 as it moved west facing north. I looked further and located where vehicle #1 left four tire marks on the sidewalk that borders the Kentucky Fried Chicken parking lot. I saw where vehicle #1 continued to move toward the west as it moved across two large hedges approximately six feet high. The hedges were broken and bent over but remained standing. Vehicle #1 came to a rest on the other side of the hedges.

I then took photographs of the inside of both vehicles. I saw that the air bag had been deployed in vehicle #2. Knowing that Brown had sustained a cut on his head I looked and saw that the plastic molding to the A pillar was broken. There was also what looked like fatty material on the pivot part of the sun visor and a small piece on the windshield. Brown striking the broken plastic is consistent with the primary direction of force of the impact. I did not take photographs of the undercarriage due to it being so dark.

I then took photographs of vehicle #1. Other than medical and fire personnel removing the roof of the vehicle, the damage was extensive. I saw where the bead portion of the right front wheel had been damaged most likely from sticking the curb as it moved sideways. The right side of the vehicle sustained the most damage as it was concave with the right front tire and wheel bent nearly to the point of being perpendicular to the side of the car. The passenger area of the vehicle had been heavily damaged and ended up low to the ground. I saw that both airbags had been deployed in the vehicle. I did not take photographs of the undercarriage due to it being so dark.

At that time I measured the scene along with all tire marks and the scrapes that were more than likely caused by the undercarriage of vehicle #1. Officer Martin Snowbarger and Officer Keith Herrera operated the total station for the scene measurements. I pointed out what needed to be measured on the roadway.

Before clearing from the scene I removed the video card from Brown's camera system at approximately 0555 hours. The vehicle's ECM was also removed from the vehicle for future investigation.

Sergeant Pixton completed a tow sheet for vehicle #1 and once Interstate Towing arrived on scene I responded to the Farmington Police Department to download the information from the total station.

Snowbarger and I were then able to place all measurements from scene on to a diagram including the vehicles and all the roadway evidence. He printed the diagram along with all measurements and released them to me.

I then responded to the Kirtland Sub Station and met with Deputy Emerson Charley who was able to collect the information from the ECM and release the printouts to me. The time he retrieved the information off the module was 0941 hours. I saw that there was a sheet with speeds what appeared to be time on a line graph. However, Deputy Charley informed me that he has not been trained on deciphering the information from the printouts.

I then responded to the Farmington Police Department and met with Snowbarger. He explained what the printouts meant in general. Snowbarger explained that speeds on the line graph showed in the range of 50 to 55 miles per hour. Another sheet gave numbers on the speeds which were from 51 to 54 miles per hour. The numbers at the bottom of the line graph indicated milliseconds at and before the impact. Another aspect of the line graph showed braking percentage and acceleration. Braking was next to none and acceleration was in the range of 0 to 21 percent.

After leaving the police department, I responded to Interstate Towing for further investigation on vehicle #1. I had the tow truck driver lift the vehicle by a small metal bracket on the front. I was able to take photographs of several locations on the frame and other parts of the under carriage that had heavy scraping that was consistent with the roadway evidence at the scene. Behind the right front wheel I saw scrapes on the frame. Due to the fact that the right front wheel area took a large brunt of the impact, the frame scrapes were consistent with the scrapes on the roadway near the area of impact. I examined both the driver and passenger seatbelts. They both had signs of stretching and unevenness. I determined that both the driver and passenger were wearing their seatbelts.

I then responded to the Municipal Operation Center in Farmington where Brown's unit was taken. I also found unevenness and stretching on his seatbelt. I determined that he had been wearing his seatbelt. I did not find any evidence on the undercarriage that indicated it made contact with the roadway on scene.

On this date, December 14 2012, I responded to the Municipal Operations Center in Farmington with Snowbarger and we were able to remove the Air Bag Control Module. After retrieving the module I followed Officer Snowbarger to the Farmington Police Department. There Snowbarger downloaded the information and gave me a copy of the data. Snowbarger pointed out where the data showed speeds of negative 33 miles per hour. Snowbarger explained briefly that the numbers did not mean that the actual speed at the time of the crash was 33 miles per hour. He explained with other numbers involved with the crash and the negative 33, the actual speed could be calculated. Snowbarger advised the data showed that Officer Brown was not wearing his seatbelt.

As mentioned above Officer Brown's seatbelt showed evidence of stretching and unevenness. Due to this fact I asked Snowbarger if he could make an inquiry into vehicle #2 history. Information was that the vehicle had received repairs in the past. It was possible that the previous incident in which the vehicle sustained damage, could have caused the stretching to seatbelt.

**Driver #1 Statement: Cody Olechea**

I then learned that the driver of vehicle #1, Cody Olachea, had bonded out of jail after being arrested on charges related to this case. I was able to locate Olechea at the San Juan Regional Medical Center. At 1438 hours I explained his Miranda Rights and he agreed to speak with me. He stated he was coming from his house with a friend by the name of Desiree. He was going to a friend's house who lives on Butler near the area of the strip mall. As he was traveling north on Butler he was almost sure he was in the outside lane. As he drove north he didn't see any traffic on the roadway. Due to the fact that he knew the light wasn't red he proceeded through the intersection without stopping. Olachea stated he didn't think the light was green either. He stated he looked directly at the light and saw that it wasn't red but wasn't sure what it was. He mentioned that it may have been flashing yellow.

I asked Olachea if he remembered anything else and he stated he didn't remember being hit by the other vehicle. He stated all of a sudden he was in the hospital. Olachea also stated that he didn't think he was traveling over the speed limit and advised the speed limit was 35 miles per hour.

While speaking with Olechea I took photographs of his injuries.

**Witness Statement: Dan Anglin**

On this date, 12-13-2012 at approximately 0900 hours I responded to the City of Farmington Traffic Division and spoke with Dan Anglin. I asked him about the traffic light operation at the time and location of the crash. He informed me that during the early hours of the morning when there is little to no traffic at that intersection the lights go into what's called a "rest" mode. This means that the lights for east and west bound traffic on Main St. stay green and the lights for north and south bound traffic on Butler stay red. This is the case until a vehicle approaches the intersection on Butler. Dan explained that there is a sensor approximately one vehicle length from the stop bar. Until a vehicle crosses over the sensor the light stays red for Butler. Once the sensor is activated the light cycle begins. He advised the time it takes for the light to turn yellow on Main St. then to red then green for Butler, is about 3-5  $\frac{1}{2}$  seconds. I asked Dan if it at any time would the light sense a vehicle when its red far enough back that would allow that vehicle to remain in motion without stopping before it got to the intersection and the light turn green. He again reiterated that the sensor only picks up a vehicle approximately one vehicle length from the stop bar. I asked Dan if there was a chance that the light was green for west bound traffic on Main Street and northbound traffic on Butler. He explained that there would have to be some sort of glitch or problem with the system. He explained that if that were to happen, the light would only be green both ways for one tenth of a second then they would both flash red. Also when this happens the system sends him an email on the problem so that it can be fixed. He did not receive any emails that anything was wrong.

**Driver #2 Statement: Officer Tyler Brown**

I was also able to get a hold of Officer Brown on this date for a statement. He stated he was traveling west on Main Street from the east end of Farmington. As he approached the intersection he didn't see any other cars on the roadway coming toward him or from the side streets. He looked at the light and saw that it was green so he proceeded. The only time he saw vehicle #1 was a split second before impact. Brown stated he did not have any time to react to the impact. I asked Brown how fast he thought me may have been traveling and he stated approximately 50 miles per hour.

Due to the fact that the crash occurred at approximately 0342 hours, and both drivers stating that they didn't see any other traffic on the roadway, it is evidence that the traffic signals were in the "rest" mode.

With the information from the ACM I re-contacted Officer Brown. I explained the situation and asked him if he remembers if he had his seatbelt on or not. Brown advised he didn't think he had it on.

**Cause:**

With Olechea's statements that he did not see any traffic on the roadway, not being sure what color the light was, and not stopping before proceeding through the intersection. Also with the information from Dan Anglin, it is evident that the cause in this crash is Olachea Failing to Obey Traffic Signals( not stopping for the red light).

**Enforcement Action:**

Due to Brown's statement that he believed he was traveling approximately 50 miles per hour at the time of the crash, and the reliable information from the computer module and also with reliable information from the Airbag Control Module, I will issue Brown a citation for Speeding 51 miles per hour in a 35 mile per hour zone after taking into account the 4 percent margin of error. I will also issue a citation for Seatbelt.

**Vehicle Damage:**

See original crash report and above narrative.

**Injuries:**

Driver #1, Olachea sustained numerous bumps and abrasions to his head, upper body and legs. He was treated and released before he was booked. Passenger in vehicle #1 sustained numerous broken bones, a head injury and an

injury to her liver. As of this date, 12-14-2012 the passenger in vehicle #1 is listed in "guarded" condition and is out of ICU. Driver #2 sustained a cut on the top of his head that required 10 staples. He was also treated and released.

**Evidence:**

On 12-13-2012 I entered the two CD's with case photographs into evidence along with the Total Station diagram and measurements, the printed copies of the PCM data into locker #9 at the Lee Acres Sub Station. On this date I entered the hard copies of the ACM data into evidence at the Kirtland Sub Station into locker #3 at approximately 1335 hours.

**Case Status:**  
Pending.

CASE #: 2012-52260

OFFICER NAME: S. J. COX

OFFICER R#: 287

HIGHEST CHARGE: GREAT BODILY HARM BY VEHICLE

#### Synopsis:

On December 12, 2012, at 0342 hrs. deputies responded to a two vehicle crash involving an orange passenger car that was struck by a Farmington Police Vehicle at the intersection of Main and Butler. After my investigation, I arrested Cody Olachea and charged him with Great Bodily Harm by Vehicle, Possession of a Controlled Substance, and Obedience to a Traffic Control Device.

#### Investigation:

Officer Brown with the Farmington Police Department stated to Deputy Ahkeah that he was traveling west on Main and he had a green light at the intersection so he proceeded through it. As he entered the intersection, he observed an orange passenger car going north on Butler. The light for north bound traffic was red but the vehicle didn't stop and it entered the intersection in front of Officer Brown. Officer Brown couldn't avoid the car and his vehicle struck the passenger side of the orange car.

After the collision, Officer Brown began to render aid to the occupants of the car. The driver, Cody Olachea, and the passenger, Desaree Trujillo, were unconscious and had to be extracted by fire

Case Description:  
Great Bodily Harm

Case Number: 2012-00052260

personnel. When Mr. Olachea was removed from the car, he was put into an ambulance. Officer Brown, with minor injuries, was placed into the same ambulance and both were transported to the hospital. While in the ambulance, Officer Brown overheard Mr. Olachea tell medics that he was at a party earlier and he got fucked up. Sergeant Pixton, who responded to the crash, observed a bottle of vodka in the front of the car. It was unclear if the bottle had been opened before the crash, however, there was fluid inside the bottle.

At the hospital, I Mirandized Mr. Olachea and asked him about the crash but he refused to answer my questions. When he did speak, I could smell the odor of an alcoholic beverage on his breath and he had bloodshot, watery eyes and slurred speech. I read him the Implied Consent Act at 0532 and asked him if he would consent to a blood draw but he refused. I completed a Search Warrant for blood and it was signed by Judge King. Blood was drawn at 0635 by Nurse Amanda Kline.

After Mr. Olachea was treated at the hospital, I took him into custody. I placed him in handcuffs behind his back and I checked that they weren't too tight by slipping a finger between the cuff and his wrists.

I was given Mr. Olachea's property at the hospital, which consisted of his pants, shoes, cell phone and his wallet. I took Mr. Olachea into custody and booked him into the jail. Once there, his property was searched by Officer Hogue, who found two small pieces of plastic that were rolled up and in a pocket in his wallet. Inside each piece of plastic, there was a white powdery substance.

#### Interview with the suspect, Cody Olachea:

I Mirandized Mr. Olachea again and asked him what the substance was. He told me that it was cocaine that he obtained before the party he attended. I asked him how much alcohol he had consumed and he said he didn't know.

#### Injuries:

The doctor who treated Desaree Trujillo stated to me that she had a fractured skull, several facial fractures, a fractured sternum, both of her ankles were fractured, her liver was bleeding, and she had a pelvic fracture. During my investigation she was unconscious and unable to answer my questions.

Mr. Olachea had several lacerations and scrapes on his face and a minor injury to his right hand. Officer Brown had a visible laceration to his head.

#### Evidence:

The white powdery substance found in Mr. Olachea's wallet was in two small pieces of plastic, the type of plastic used for disposable shopping bags. I tested the powder in each plastic wrap and both tested positive for cocaine. Next, I weighed the cocaine in the plastic and one weighed 2G/ 0.1 oz, and the other weighed 1G/ 0.1 oz.

I logged the DWI blood kit and two bags of cocaine into evidence at the Aztec Office and placed them into locker #11.

Case Description:  
Great Bodily Harm

Case Number: 2012-00052260

Vehicle Involved:

The vehicle involved was an orange Mitsubishi passenger car bearing NM plate 299RML. It was heavily damaged in the crash and was towed by Interstate Towing.

Property Damage:

See the crash report by Deputy Ahkeah 12-52259.

Action Taken:

Cody Olachea was arrested at the hospital and charged with Great Bodily Harm by Vehicle, Possession of a Controlled Substance, and Obedience to a Traffic Control Device. I completed a Blue Sheet and turned it in with my search warrant for blood and the arrest paperwork.

Case Status:

Referred to the Detective Division.

Approved by Sgt. Pixton 12/13/12
